

[FOR IMMEDIATE RELEASE]

POWERCOLOR ADDS OWN EDITION TO THE HD5700 SERIES: PCS+ HD5770
The HD5770 now comes factory overclocked and equipped with the Professional Cooling Solution

Taipei, Taiwan –December 8, 2009 -- TUL Corporation, a leading manufacturer of AMD graphics cards, introduced an upgraded addition into the HD5700 series: the PCS+ HD5770. Part of the award-winning PCS series, the PCS+ HD5770 features outstanding factory overclocked ability with core and memory clocks at 875 MHz and 1225MHz respectively and GDDR5 onboard memory. Memory data transmission rates are enhanced up to 4.9Gbps, easily boosting gaming performance.

The PCS+ HD5770 also features an ultra quiet 92mm cooling fan which is made of a low-noise impeller, easily dissipating heat from the copper base that fully covers the GPU at lower fan speed and efficiently cools down the temperature up to 10°C compared to that of reference board design. This allows more headroom for overclocking giving gamers maximum performance of their rig.

DiRT2 Game Bundle: *Unleash DirectX® 11 gaming power*

To maximize the DirectX® 11 technology, PowerColor includes the latest DiRT2 into PCS+ HD5770. DiRT2 is a world tour of adrenaline-fuelled extreme off-road events in stunning real-world locations. With the support of DirectX® 11 technology, this latest game delivers the most realistic, immersive and exhilarating racing experience to gamers.

“The PCS+ series is designed to fulfill the toughest gamers’ need,” said Ted Chen, CEO of TUL Corporation. “With factory overclocking and superb cooling ability, the PCS+ HD5770 will surprise all gamers—you’ll know that quiet, cool and gaming performance can co-exist without compromise.”

The PowerColor PCS+ HD5770 is compatible with the latest technology. Gamers can take advantage of ATI Eyefinity and DirectX 11 technology, experiences the unbelievable HD gaming performance through up to three displays and easily gets lost in the game; with support of ATI stream technology, the PCS+ HD5770 brings the best productivity through accelerating the daily application, enhance the working and entertaining efficiency.

The PowerColor PCS+ HD5770 will be available on Dec. 18th.
