

POWERCOLOR ANNOUNCES THE FIRST AND ONLY GRAPHICS SOLUTION ON THE PLANET: HD5770 Eyefinity 5

The first graphics solution to support up to 5 display monitors

Taipei, Taiwan –March 18, 2010 -- TUL Corporation, a leading manufacturer of AMD graphics cards, today introduces the first and only graphics solution on the planet: the HD5770 Eyefinity 5. The HD5770 Eyefinity 5 features multi-display eyefinity technology, enables up to 5 monitors to be operated from one card through its five mini displayport onboard design. Gamers can easily make use of this unique feature and have different display configurations to enjoy a wider field of view and get more done at the same time.

This unparalleled graphics solution takes advantage of the HD5770 series features, clocking in at 850 MHz core speed and 1200MHz memory speed, the card is ready to tackle all the latest game titles and enable a superior gaming experience. With support for Microsoft's DirectX® 11, the HD5770 Eyefinity 5 provides the most vivid gaming experience like never before. Compatible with ATI Stream technology, the card enables demanding data parallel compute tasks from the CPU to GPU, accelerating daily applications.

"As the first graphics solution supports up to 5 displays, the PowerColor HD5770 Eyefinity 5 delivers an immersive HD gaming performance with wider field of view and increases productivity at the same time," says Ted Chen, CEO of TUL Corporation.
